Environment

Impact on score ●●●●

● → **90**/100

Environment | Policies

Impact on score ●●●●

● ↗ **100**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Environmental policy on product use
Quantitative objectives set on energy consumption & GHGs
Environmental policy on air pollution
Exceptional policy on major environmental issues
Environmental policy on water
Environmental policy on customer health & safety
Environmental policy on product end-of-life
Environmental policy on materials, chemicals & waste
Quantitative objectives set on water
Quantitative objectives set on materials, chemicals & waste

Environment | Endorsements

Impact on score ●○○○

● → **0**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on environmental issues

Environment | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Adoption of cooling systems with reduced or recycled water consumption
Improvement of energy efficiency through technology or equipment upgrades
Control measures to prevent contamination of groundwater
Reduction of material consumption through process optimization
Training of employees on waste reduction and sorting
Other actions to manage water efficiency or wastewater discharge
Water risk assessments performed
Water audit
Provision of information on efficient use, storage, and maintenance to extend product life
Chemical products designed to reduce toxic discharges to the environment
Use of green chemistry design to eliminate or reduce leaching of harmful residues
Wastewater quality assessment
Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)
Technologies or practices to recycle or reuse water
Training of employees on energy conservation/climate actions
Use of waste heat recovery system(s) or combined heat and power unit(s)
Energy and/or carbon audit
Provision of Safety Data Sheets (SDS)
Formalized process in place to assess and document risks related to customer health and safety
Periodical analysis on the volumes of major air pollutants or ambient air quality monitoring (testing levels of PM, NOx, SO2, VOC or heavy metals)
Work processes or technologies implemented to mitigate odor
Use of recovered input materials
Internal sorting & disposal of waste according to waste streams
Other actions to reduce energy consumption/GHG emissions
Regular noise measuring campaign (site boundary noise measurements undertaken)
Use of eco-friendly or bio-based input materials
Actions for labeling, storing, handling and transporting hazardous substances
Purchase and/or generation of renewable energy
Company awareness program for customers on health & safety issues associated with products/services
Reduction of internal wastes through material reuse, recovery or repurpose
Mapping of waste streams
Other actions to ensure safe management of hazardous substances
Communication to downstream users regarding the use of dangerous substances and/or substances of very high concern (SVHC)
Registration of substances to the ECHA

Environmental emergency measures in place
Provision of safety data sheets (SDS) adapted for the REACH regulation
Use of chemical database to identify potential impacts on human health

Environment | Certifications

Impact on score ●●●○

● → 100_{/100}

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

Specific environmental certification
ISO 14001 certified

Environment | Reporting

Impact on score ●●●○

● → 75_{/100}

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on total water consumption
Reporting on total weight of waste recovered
External assurance or verification of sustainability reporting
Reporting on total gross Scope 3 GHG emissions
Reporting in accordance with GRI Universal Standards
Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Company communicates progress towards the Sustainable Development Goals (SDGs)
Reporting on total weight of hazardous waste
Materiality analysis in sustainability reporting
Reporting on total weight of non-hazardous waste
Reporting on total gross Scope 3 downstream GHG emissions
Reporting on total amount of renewable energy consumed
Reporting on total energy consumption
Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation
Reporting on total amount of water recycled and reused
Reporting on total weight of air pollutants
Total gross Scope 2 reporting value confirmed in supporting documentation
Total gross Scope 1 reporting value confirmed in supporting documentation
Comprehensive reporting on environmental issues
Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)

Environment | 360° Watch

Impact on score ●●●●

● → 100/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company’s sustainability management.

Strengths

The 360° Watch has identified innovative best practices and/or external recognition regarding environmental issues (see 360° Watch section).

Labor & Human Rights

Impact on score ●●●●

● → 80/100

Labor & Human Rights | Policies

Impact on score ●●●●

● → 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

Quantitative objectives set on working conditions
Quantitative target set on living wage
Living wage target publicly announced
Labor & human rights policy on social dialogue
Committed to continuously pay a living wage
Comprehensive policy on a majority of labor or human rights issues
Labor & human rights policy on working conditions
Labor & human rights policy on employee health & safety
Labor & human rights policy on child labor, forced labor & human trafficking
Quantitative objectives set on career management & training
Labor & human rights policy on career management & training
Labor & human rights policy on preventing discrimination and harassment

Labor & Human Rights | Endorsements

Impact on score ●○○○

● → 0/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on labor and human rights issues

Labor & Human Rights | Measures

Impact on score ●●●●

● → 75/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Analysis of employees’ wage levels against a living wage benchmark methodology recognized by IDH
Provision of skills development training
Collective bargaining agreement on working hours, overtime, or leaves
Collective bargaining agreement on preventing discrimination and harassment
Collective bargaining agreement on career management & training
Employee representatives or employee representative body (e.g. works council)
Awareness training on discrimination and harassment
Communication to all employees of remuneration process (e.g. salary grid, procedure for salary advancement)
Bonus scheme related to company performance
Training of employees on child labor, forced labor and human trafficking
Actions to control radiation exposure
Preventive actions for repetitive strain injury (RSI)
Actions in place to ensure health and safety of non-employee workers and other contracted workers on premises
Regular assessment of individual performance
Collective bargaining agreement on employees’ health & safety
Grievance mechanism on child labor, forced labor and/or human trafficking issues
Actions to address stress and psychological wellbeing in the workplace
The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified)
Actions to ensure equal pay for equal work
Other actions to ensure good working conditions
Flexible organization of work (eg. remote work, flexi-time)
Training of employees on health and safety risks and best working practices
Complaints procedure in place for employees to report on occupational health and safety issues
Other actions on employee health & safety
Employee health & safety risk assessment
Employee stock ownership plan (not restricted to executive level)
Health care coverage of employees in place
Age verification of candidates before hiring
Regular employee health check-up
Employee health and safety emergency action plan
Equipment safety inspections or audits

Labor & Human Rights | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

Specific labor or human rights certification
ISO 45001 certified

Labor & Human Rights | Reporting

Impact on score ●●●○

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on the percentage of direct employees covered by a living wage benchmarking analysis
Reporting on the percentage of direct employees paid below living wage
Report on average unadjusted gender pay gap
Reporting on the percentage of women employed in relation to the whole organization
Report on percentage of women within the organization's board
External assurance or verification of sustainability reporting
Reporting in accordance with GRI Universal Standards
Reporting on the percentage of all employees paid below living wage, including direct employees and non-employee workers
Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization
Company communicates progress towards the Sustainable Development Goals (SDGs)
Materiality analysis in sustainability reporting
Reporting on the percentage of women at top management level
Reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees
Reporting on number of average training hours per employee
Comprehensive reporting on labor and human rights issues
Reporting on number of recordable work-related accidents

Improvement areas

Low priority	Declares reporting on number of days lost to work-related injuries, fatalities and ill health, but no supporting documentation available
